

KARTIK SHERAWAT

SENIOR JAVA BACKEND DEVELOPER | JAVA | SPRING BOOT |
MICROSERVICES | KAFKA | AWS

9718879096 | kartiksherawat.96@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Java Backend Developer with 4+ years of experience building scalable backend systems and microservices using **Java, Spring Boot, REST APIs, Apache Kafka, and AWS**. Experienced in modernizing legacy monolithic applications, designing high-volume APIs, optimizing database performance, and implementing secure, event-driven architectures. Delivered backend solutions for **GovTech and CRM platforms**, supporting **20K+ users, 700+ districts, and high-throughput workloads**.

TECHNICAL SKILLS

Languages: Java 8/11, SQL

Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA

Architecture: Microservices, REST APIs, Event-Driven Architecture, JWT, RBAC

Databases & ORM: MySQL, Redis, JPA, Hibernate, JDBC

Messaging: Apache Kafka

Cloud & DevOps: AWS ECS, AWS EC2, Docker, CI/CD

Tools: Git, Maven, Postman, Swagger

PROFESSIONAL EXPERIENCE

Aurionpro Solutions Ltd. — Noida, India

May 2024 – Present

Java Backend Developer / GovTech Projects

- **Designed and developed** scalable microservices using Java and Spring Boot for large-scale government platforms.
- **Developed and maintained 500+ production REST APIs** integrating internal services with external government systems.
- **Migrated legacy Struts/Hibernate monoliths to Spring Boot microservices**, improving scalability and reducing API response time by **30%**.
- **Optimized MySQL database operations** using Spring JDBC and JPA, achieving up to **60% improvement in query response time**.
- **Implemented Apache Kafka-based event-driven communication** for asynchronous inter-service processing and improved scalability.
- **Developed backend services** supporting real-time officer tracking across **700+ districts** and a national training platform serving **20K+ users**.

Chawtech Solutions Pvt. Ltd. — Noida, India

Apr 2022 – May 2024

Java Backend Developer

- **Developed and deployed** containerized Spring Boot microservices on **AWS ECS** for a CRM and workforce-management platform processing **10K+ leads monthly**.
- **Implemented Spring Security and JWT-based authentication**, improving authentication reliability by **50%**.
- **Designed asynchronous processing workflows** supporting **20K+ monthly user interactions** while maintaining application responsiveness.
- **Implemented RBAC modules** for admin, consultant, and worker-level access management.
- **Improved application observability** through structured logging, exception handling, and monitoring, reducing production debugging time by **35%**.

KEY PROJECTS

AreaOfficer — Government Officer Monitoring Platform *Java / Spring Boot / Microservices / REST APIs / MySQL / Kafka*

- **Developed backend services** for a government monitoring platform enabling administrators to track field officers across **700+ districts**.
- **Built APIs and processing workflows** for officer activity, field visits, location updates, centralized monitoring, and analytical reporting.

Training Portal — National Government Training Platform

Java / Spring Boot / REST APIs / MySQL

- **Developed backend modules** for a national training platform serving **20K+ government officials and partner users**.
- **Implemented APIs and workflows** for registration, participant onboarding, scheduling, attendance, certification, and reporting.

UDBARA — Digital Healthcare Consultation Platform

Java / Spring Boot / Spring Security / MySQL

- **Developed core REST APIs** for patient/consultant management, consultation workflows, document uploads, and status notifications.
- **Implemented recommendation and consultation workflows** supporting **20K+ monthly interactions**.

Redplastring — Construction Workforce Management Platform

Java / Spring Boot / MySQL / Geolocation APIs

- **Engineered backend services** for workforce task assignment, field activity tracking, and project monitoring.
- **Implemented geofencing-based location validation** and APIs for task progress, worker activity, and location verification.

EDUCATION

Dr. A. P. J. Abdul Kalam Technical University <i>Master of Business Administration (Information Technology)</i>	2020 – 2022 <i>Lucknow</i>
